Date of expiry	TBS
Notice issued by	Francis Galarce
Related attachments	Nil
Related charts and publications	Nil

Description

To all Albany Port Users and Masters,

The operation of open-loop exhaust gas cleaning systems (scrubbers) within Princess Royal Harbour, Port of Albany, is prohibited due to the harbour's natural topographical features and limited water exchange characteristics.

The Master of every vessel must provide a declaration confirming compliance with this requirement.

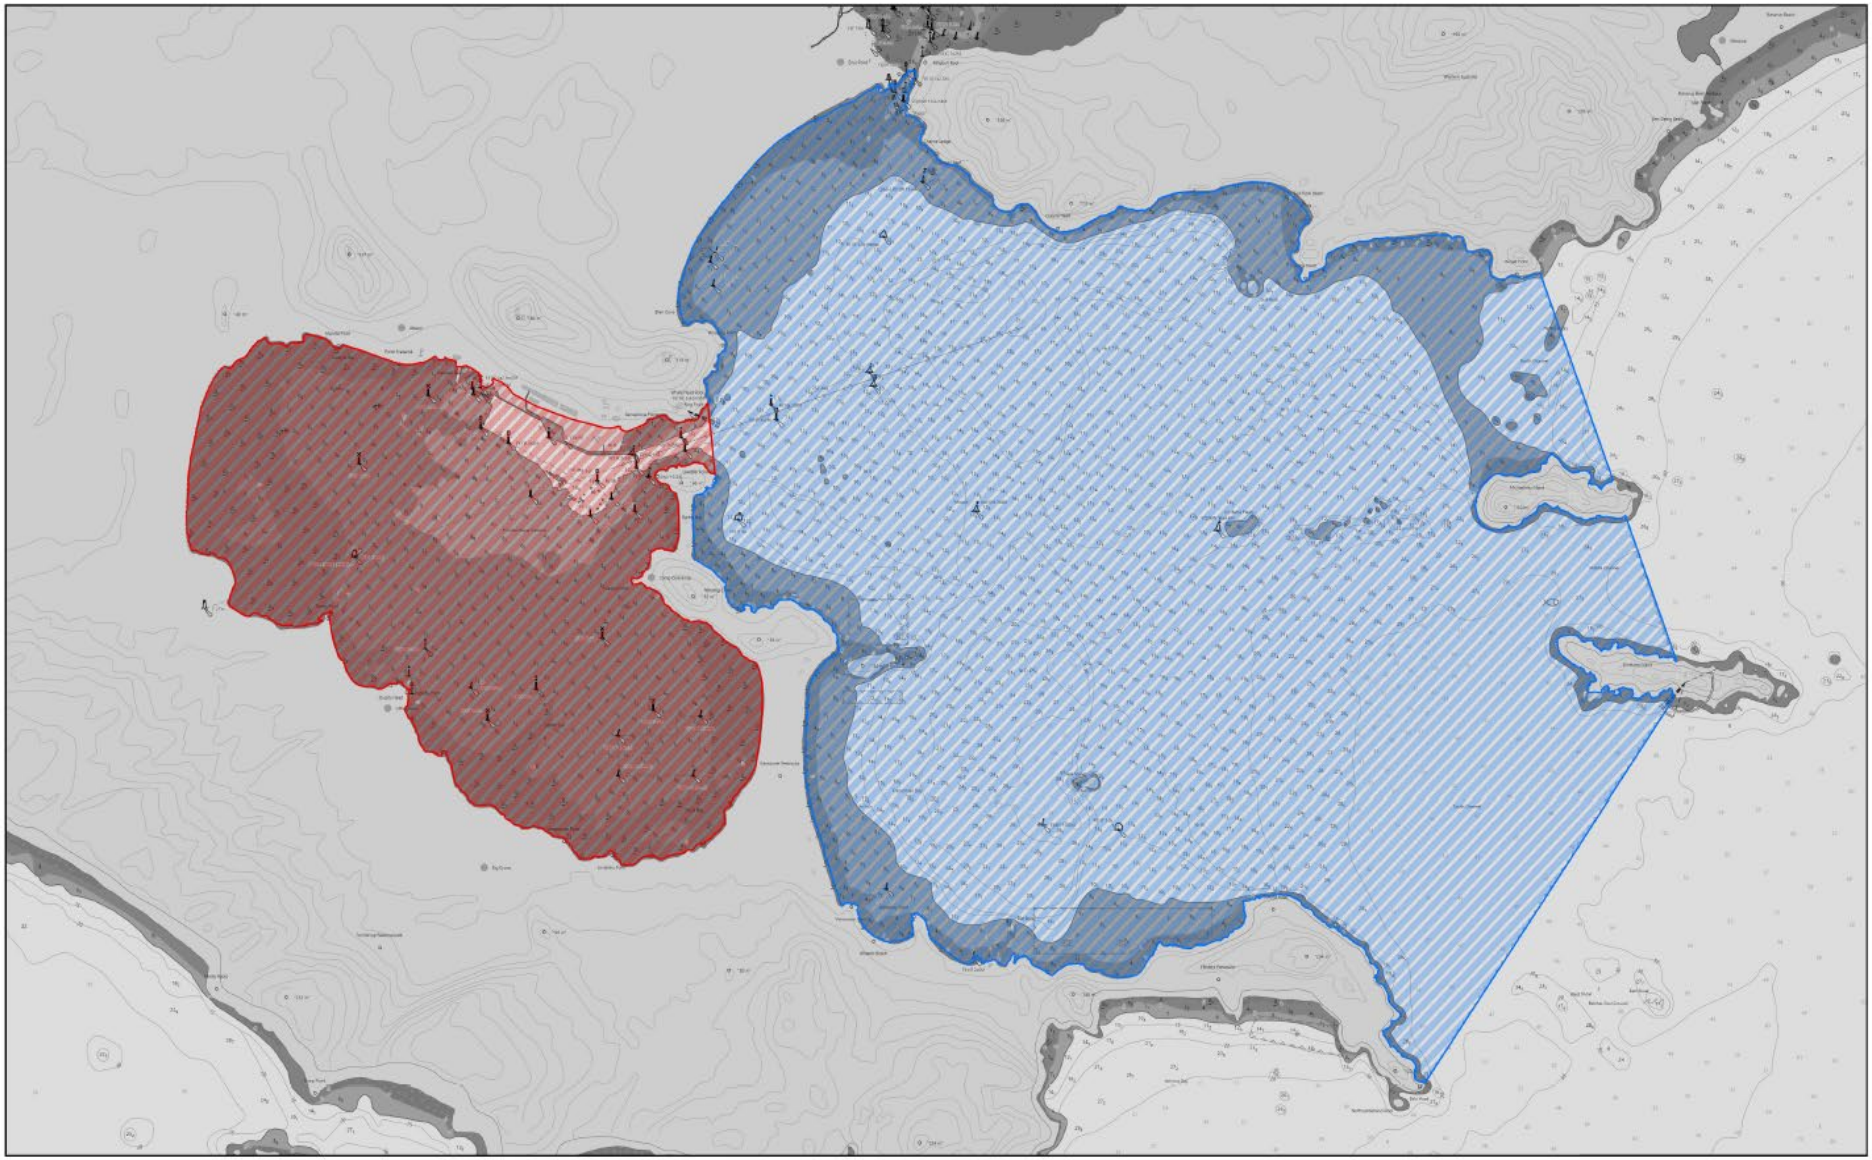

This notice applies at all times before berthing, while alongside the berth, and during departure from the berth, and must be strictly adhered to.

This notice does not apply to vessels operating within King George Sound or designated anchorage areas. Please refer to the map on the following page for guidance.

Please be guided with the effectivity date of this Marine Notice.

For further information, please contact the Harbour Master’s Office on this number 0488 929 095
